

Translational Technology in Clinical Trials

European Scientific Meeting 2010

Arena and Convention Centre Liverpool

Friday 19 March 2010

Conference Organiser – J A Green

08.30 REGISTRATION AND INTRODUCTION

9.00 – 10.00	Personalised medicine: challenges and opportunities	M Pirmohamed* Liverpool UK
	Companion biomarkers in colorectal cancer	M Seymour* Leeds UK
10.00 – 11.00	Blood borne biomarkers of cell death in early clinical trials	C Dive* Manchester UK
	Protein profiling of signalling pathways from FFPE sections.	KF Becker*, Munich
11.00- 11.30	Coffee/refreshments	
11.30 – 13.15	Second generation sequencing of human cancers	N Hall* Liverpool
	Circulating Tumour DNA	XiaoY Zhong* Basel
	Molecular profiling of tumours: what have we gained?	PG Johnston Belfast

13.15 – 14.00 LUNCH

14.00 – 15.00	FDG PET as a predictor of response in clinical trials	D Slosman* Geneva
	Integrating histopathology, molecular biomarkers and imaging	D Treanor* Leeds
15.00-15.15	Discussion	
15.15 – 15.30	Coffee/refreshments	
15.30-1630	Circulating Tumour Cells	B Brandt* Hamburg
	Summary	R Wooster*, GSK, Philadelphia

***speakers confirmed**
